### PINS Standard Action Request Form

Complete the form below for each Standards Action Request. Hit ADD REQUEST to add each additional standard to your submittal

Designation of Proposed Standard  
BSR A300 (Part 9)-20xx Risk  
Assessment

Title of Standard  
for Tree Care Operations — Tree, Shrub, and Other Woody Plant Management —  
Standard Practices (Risk Assessment)

Project Intent  
Create new ANS

Supersedes or Affects  
N/A

Project Need

Identify ISO or IEC standard to be  
adopted

No standard practices exist for green industry professionals conducting assessments of a  
tree's potential to cause harm. TCIA's intent is to fill this need by developing standard  
practices to use as a guide when assessing tree risk.

Identify Stakeholders

Includes text from ISO or IEC  
standard?

Tree Care Industry, Green Industry, Arborists, Land Care Industry, Urban planners,  
Landscape architects, Property managers, Governmental agencies

No

Scope summary

A300 standards are performance standards for the care and maintenance of trees, shrubs, and other woody plants. They are  
also a guide in the drafting of maintenance specifications for federal, state, municipal, and private authorities including  
property owners, property managers, and utilities. A300 (Part 9)-20xx Risk Assessment will provide standard practices for  
evaluation of trees, specifically, the various defects and conditions that affect a tree's potential to cause damage and/or injury.

Consumer Product  
yes

Unit of Measure  
Both

Revised a previous PINS submittal?  
no
